The Multiverse

4 0 1

Chapter 1 by GuessStories

First when a multiverse is created, all the big bangs you can ever think of will happen, creating universes, creating galaxies, suns, planets, land, gas, water, air, all of the possibilities! Lets look at the earth's past right now. We got dinosaurs, birds, apes, lots of plants, early humans, bacteria, etc. Today, we got everything you need, as long as you actually put your effort into it. Think of it, if the earth wasn't going in this path this story wouldn't be here today!
